83-035	Stylus brush, Seeburg #405219, used to manually clean the styli & the brushes on the stripper plate, (#34 on page 1149 in the manual)	4.00
74-015	Needles , (Styli), for original Seeburg Blackhead cartridge, (PICKERING Seeburg Magnetic , is embossed into the side of the cartridge that has the <u>down arrow ↓ near the top of the cartridge</u> , (.7 mil sapphire tip , for all 45 rpm stereo and monaural records), (The blackhead cartridge was a factory cartridge used in Seeburg models: M100B, M100BL and some M100C only, both needles have an insertion tool, and the needle is attached to the insertion tool , per pair	30.00
74-009	Styli , for original Pickering/Seeburg Redhead cartridge, (The foil sticker on the front of the original cartridge reads: SEEBURG HI / FI MAGNETIC , (These are .7 mil diamond tip for all 45 rpm stereo and monaural records), (The redhead cartridge was a factory cartridge used in Seeburg models M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J, 100JL, V200, VL200, KS200, KD200, L100, 101, 161 and 201), Please Note: These are molded, as original, not 3-D printed, (These produce superior sound), (Please Note: THIS ITEM IS OUT OF STOCK, AT THIS TIME) , per pair	108.00
68-019	Screw, Slotted head , Stainless steel, this screw holds the original Seeburg Redhead cartridge in place (1) and for the cartridge socket (1), Seeburg models M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J 100JL, V200, VL200, KS200, KD200, L100, 101, 161 & 201, each	1.50
68-025	Screw, Phillips head , Stainless steel, this screw holds the original Seeburg Redhead cartridge in place (1) and for the cartridge socket (1), Seeburg models M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J 100JL, V200, VL200, KS200, KD200, L100, 101, 161 & 201, each	1.50
74-045	Styli, Green Wedge plastic housing, for the reproduction, Pickering cartridge known as the 345-03D, (The 345-03D cartridge is the one that replaces the original Pickering/Seeburg, Redhead cartridge that is originally found in Seeburg models: M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J, 100JL, V200, VL200, KS200, KD200 L100, 101, 161 & 201, these Green Wedge needles have a tracking force from 3 Grams to 6 Grams maximum, (.7 mil diamond tip needle for all stereo and monaural, 45 rpm records), Green Wedge needles produce excellent sound and volume , per pair	40.00
68-060	Screw, Phillips head , Stainless steel, this screw holds the Pickering 345-03D cartridge in place and only 1 is required , for Seeburg models M100B, M100BL, M100C , HF100G, 100W, HF100R, 100J, 100JL, V200, VL200, KS200, KD200, L100, 101, 161 & 201	1.50

Parts for Seeburg M100C, continue, on the next page

SEEBURG M100C of 1952 – 1953 (Continued)

A-1 PART #

74-008	Styli, Yellow Wedge plastic housing, for original Pickering/Seeburg Cartridges found in models: SS160 Showcase through SMC3 Prelude, these styli have a tracking force of 2 ½ to 3 Grams , (.7 mil diamond tip for all stereo and monaural 45 R.P.M. Vinyl records), Please note: Yellow Wedge needles will fit in the Pickering, replacement cartridge known as the 345-03D, (The 345-03D cartridge is used in Seeburg models M100B through 201), however, tracking forces in excess of 3 Grams might cause the needle to be pushed into the Yellow, plastic, housing, (For 345-03D cartridges, a needle with a tracking force between 3 Grams and 6 Grams, should be used), (These, Yellow Wedge needles, have a new High-level output) , per pair	\$40.00
74-025	Styli, for the aftermarket cartridge known as the Varco cartridge, (Easily identified because a small screw holds the base of each stylus in place), (.7 mil Sapphire tip, for all 45 rpm stereo and monaural records), This early conversion cartridge can be used in Seeburg models: M100B thru 201 , (This item is not discountable at this price) , per pair	20.00
74-026	Styli, for the aftermarket cartridge known as the Varco cartridge, (Easily identified because a small screw holds the base of each stylus in place), (.7 mil Diamond tip, for all 45 rpm stereo and monaural records), This early conversion cartridge can be used in Seeburg models: M100B thru 201 , (This item is not discountable at this price) , per pair	20.00
74-038	Styli, for the DS conversion cartridge, also known as the Thorpe cartridge, this cartridge is grey, black, & white & does not have any markings to ID the manufacturer or type, it has a cone or bullet shaped top, (These needles are .7 mil diamond tip for all 45 rpm stereo & monaural records, the original needles, for this cartridge were flip needles, these are stationary, this was a replacement cartridge for the original Seeburg, Redhead, cartridge, this one is sometimes found in Seeburg's from M100B thru 201 ONLY), per pair	25.00
83-007	Springs for tone arm, hand made in the U.S.A., exact replacements, (This item is not discountable at this price) , per pair	9.00
78-010	Trip switch, Micro, for tone arm, (for Seeburg models M100B thru APFEAI)	20.00
83-010	Balance spring for Micro trip switch, for the tone arm, for Seeburg models: M100B through APFEAI, original Seeburg part # 245817, each spring is hand made in the U.S.A. and is guaranteed to provide the correct tension	8.00
83-011	Spring for mechanism reversing switch, for Seeburg models M100B thru STD4, this spring is sometimes referred to as a grasshopper spring, a-must replace if the original spring is broken or damaged, handmade in the USA	15.00
84-001	Motor coupler, Seeburg models M100B & newer, connects the mechanism motor to drive gear, (Replace this part if the rubber is hard)	25.00
84-002	Motor support plug, Seeburg M100B and newer, rubber, for under the mechanism motor, (Sometimes missing, original is always hard)	4.00
84-003	Mechanism turntable drive bushings, Seeburg M100B & newer, original Seeburg part # 245464, (Replace this part if the rubber is hard) , pair	10.00
84-004	Mechanism frame rubber bumper, for all Seeburg models from M100A through SMC3, Reference: Original Seeburg part # 250108 in the model M100A and part # 245291 in all models M100B through SMC3, (Replace these two parts if the rubber is hard or they are missing) , per pair	5.00

Prices are Current as of January 24, 2022

SEEBURG M100C of 1952 – 1953 (Continued)

A-1 PART #

84-015	Motor mounts, these hold the mechanism motor in place, (round, metal and rubber rings), for all Seeburg models from M100A through all models that use a mechanism motor that was <u>manufactured in the U.S.A.</u> , these motor mounts are superior to the original because neoprene rubber is used, Guaranteed to fit, and last for many years, (Replace these two parts if the rubber is hard or breaking up), <u>2 required</u> , each	\$29.00
84-025	Rubber parts for the mechanism, Seeburg models M100B & newer, This package consists of the following A-1 parts: 84-001, 84-002, 84-003, 84-004, and (2 of) 84-015, (Replace these parts if the rubber is hard), “Replacing hard, rubber, mechanism parts eliminates “Howl” in the audio, → Save \$14.00 when purchasing the 8-piece set	88.00

SEEBURG 201 of 1958 (Continued)

A-1 PART #

- 74-009 **Styli**, for original Pickering/Seeburg **Redhead** cartridge, (The foil sticker on the front of the original cartridge reads: **SEEBURG HI / FI MAGNETIC**, (These are .7 mil diamond tip for all 45 rpm stereo and monaural records), (The redhead cartridge was a factory cartridge used in Seeburg models M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J, 100JL, V200, VL200, KS200, KD200, L100, 101, 161 and 201), **Please Note: These are molded, as original, not 3-D printed, (These produce superior sound), (Please Note: THIS ITEM IS OUT OF STOCK, AT THIS TIME)**, per pair \$108.00
- 68-019 **Screw, Slotted head**, Stainless steel, this screw holds the original Seeburg **Redhead** cartridge in place (1) and for the cartridge socket (1), Seeburg models M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J 100JL, V200, VL200, KS200, KD200, L100, 101, 161 & 201, each 1.50
- 68-025 **Screw, Phillips head**, Stainless steel, this screw holds the original Seeburg **Redhead** cartridge in place (1) and for the cartridge socket (1), Seeburg models M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J 100JL, V200, VL200, KS200, KD200, L100, 101, 161 & 201, each 1.50
- 74-045 **Styli, Green Wedge** plastic housing, for the reproduction, Pickering cartridge known as the 345-03D, (The 345-03D cartridge is the one that **replaces** the original Pickering/Seeburg, Redhead cartridge that is originally found in Seeburg models: M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J, 100JL, V200, VL200, KS200, KD200 L100, 101, 161 & 201, **these Green Wedge** needles have a tracking force from 3 Grams to 6 Grams maximum, (.7 mil diamond tip needle for all stereo and monaural, 45 rpm records), **Green Wedge needles produce excellent sound and volume**, per pair 40.00
- 68-060 **Screw, Phillips head**, Stainless steel, this screw holds the **Pickering 345-03D cartridge** in place and **only 1 is required**, for Seeburg models M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J, 100JL, V200, VL200, KS200, KD200, L100, 101, 161 & **201** 1.50
- 74-008 Styli, **Yellow Wedge** plastic housing, for original Pickering/Seeburg Cartridges found in models: SS160 Showcase through SMC3 Prelude, these styli have a tracking force of **2 ½ to 3 Grams**, (.7 mil diamond tip for all stereo and monaural 45 R.P.M. Vinyl records), Please note: **Yellow Wedge** needles will fit in the Pickering, replacement cartridge known as the 345-03D, (The 345-03D cartridge is used in Seeburg models M100B through 201), however, tracking forces in excess of 3 Grams might cause the needle to be pushed into the Yellow, plastic, housing, (For 345-03D cartridges, a needle with a tracking force between 3 Grams and 6 Grams, should be used), **(These, Yellow Wedge needles, have a new High-level output)**, per pair 40.00
- 74-025 Styli, for the aftermarket cartridge known as the **Varco** cartridge, (Easily identified because a small screw holds the base of each stylus in place), (.7 mil **Sapphire tip**, for all 45 rpm stereo and monaural records), This early conversion cartridge **can be used in Seeburg models: M100B thru 201, (This item is not discountable at this price)**, per pair 20.00

Prices are Current as of January 24, 2022

SEEBURG 201 of 1958 (Continued)

65-015	Speaker-board screen, (used in back of front metal grill screen), plastic fiber, charcoal-black, for Seeburg Models 100J thru DS160, Note: This item is not for Seeburg models M100A through HF100R, 28" X 36"	\$15.00
76-010	Key for Seeburg 220, 222, AQ100, AQ160 , AY100, AY160, DS100 and DS160 cabinet sides and back door, (Not for the cash door) , F264	10.00
67-004	Cash bag, for Seeburg models: M100A through DS160 only, outside dimensions of bag: 5" X 5" X 6" deep, (Original duck cloth material, has a wire rim and is hand made in the U.S.A.)	16.00
67-012	Cash door, superior grade birch covered plywood, (The back-up plates are already attached to this door) , (for use With metal frame around opening, for Seeburg models late M100C through LS3)	20.00
76-050	Lock, 1 1/8" quality lock, & 2 keys for Reproduction - wooden cash door	12.95
76-051	Lock, 1 1/8" quality lock, hardware, & 2 keys for Original metal cash door	12.95
76-058	Lock, 1 1/8" quality lock, hardware & 2 keys for Lower back door	18.95
76-085	Key, for all our reproduction locks that are keyed alike, key # LS301, each	4.00
81-014	I.D. plate, aluminum, Models: Q100 and Y100, printed as original, Q or Y is not printed on this I.D. plate), no serial number, for back of cabinet	15.00
81-050	Screws Tamper-Resistant, (one-way) , round head, for I.D. plate, Stainless steel, for Seeburg models: V200, VL200, KS200, KD200, L100, 101, 161, 201, 220, 222, Q100/160, AY100/160, DS100/160, LPC1, LPC480, U100, PFEAIU and APFEAI, 4 piece set	2.50
95-010	Graphic for rear UPPER cabinet, White, vinyl transfer, (for Models Q100 and Q160 only), "SEEBURG"	10.00
95-011	Graphics for LOWER rear door, White, vinyl transfer, (for Models Q100, and Q160 only), "MASTER VOLUME CONTROL" and "MAIN SWITCH", "RECORD REJECT", 2-piece set	12.00
92-042	Capacitor kit: Seeburg Models 220, 222, Q100 & Q160, Amp. #: SHFA1 , includes schematics & replacement values reference sheet, (This item is not discountable at this price)	105.00
92-070	Capacitor and <u>Resistor</u> kit: Seeburg Models 220, 222, Q100 & Q160, Amp. # SHFA1 , Includes schematics & replacement values reference sheet, (This item is not discountable at this price)	135.00
92-045	Capacitor kit: Seeburg Models 220, 222, Q100 & Q160, Amp. #: SHFA2 , includes schematics & replacement values reference sheet, (This item is not discountable at this price)	105.00
92-072	Capacitor and <u>Resistor</u> kit: Seeburg Models 220, 222, Q100 & Q160, Amp. # SHFA2 , Includes schematics & replacement values reference sheet, (This item is not discountable at this price)	130.00
92-002	Transistor 2N109, PNP Germanium, Seeburg # 308950, SHFA1 = 4 on top, SHFA2 thru SHFA5 = 2 each are soldered in, on the underside, each	10.00
91-004	Volume control potentiometer for Seeburg Models: 100J, 100JL, V200, VL200, KS200, KD200, L100, 101, Q100, Q160, AY100 and AY160, (Monaural only), (This item is currently out of stock)	50.00

Prices are Current as of January 24, 2022

SEEBURG Q100 of 1959 – 1960 (Continued)

A-1 PART #

91-002	Volume control potentiometer (For stereo amplifiers): SHFA1, SHFA2 and TSA1 through TSA10, Also: For stereo amplifiers in Rock-Ola Models 1460 through 437, (This item is currently out of stock)	\$50.00
76-001	Key for volume control, <u>for original potentiometers</u> , for Seeburg monaural Amplifier models: 830-3 in the Concert Master through SHFA2 in the AQ100/160 and for all Wurlitzer amplifiers using the original potentiometer	4.50
92-053	Capacitor kit, <u>Specify the model</u> : TSU1 thru TSU7, (Tormat Selector Units), used in Seeburg models: 220 thru DS160, This kit includes the three must-change components for the Pulse Amplifier & a Bridge Rectifier which replaces the original Selenium Rectifier, this kit also includes: Schematics and a replacement values reference sheet, (It does not Include the capacitor for wallbox operation), please see A-1 part # 92-085, below, which is the same kit but does not include a bridge rectifier	40.00
92-085	Capacitor kit, <u>Specify the model</u> : TSU1 thru TSU7, (Tormat Selector Units), used in Seeburg models: 220 thru DS160, This kit includes the three must change components for the Pulse Amplifier. This is the same kit as A-1 # 92-053 but this kit does not include a Bridge Rectifier, this kit also includes: Schematics and a replacement values reference sheet, (This kit does not include the capacitor for wallbox operation)	35.00
92-025	Capacitor for Stepper, (Operates wallboxes), used in Seeburg Models: M100A, (Wired Selection Receiver 3), thru LPC480, (Remote Control Stepper Unit 5)	20.00
72-001	Bulb, miniature #12, selection playing indicator (Takes 1) and under the mechanism cover logo (Takes 1), individually packed, (10% discount for bulk, 10 or more), each	4.00
72-008	Bulb, miniature #55, Best quality , (credit lamp) (Takes 1), individually packed, (10% discount for bulk, 10 or more), each	1.85
70-008	Fluorescent lamp 25-watt 28" T12, cool-white is recommended, (2), each	18.00
70-009	Fluorescent lamp 25-watt 28" T12, daylight, (optional color)	25.00
70-050	Colored sleeve for T12 fluorescent lamp, (cut to your specified length), <u>Specify</u> : <u>sleeve color</u> : red, blue, green, yellow, or pink , per foot	2.00
71-006	Ballast, 25-watt, for 1 lamp, new style, (clamped core), made in the U.S.A.	30.00
71-024	Ballast, Double 25-watt, (for 2 lamps) , original style case & Black color, made in U.S.A., includes 2 rubber mounting grommets, (This item not discountable)	75.00
71-028	Starter with condenser, <u>FS-Universal</u> for 4-watts thru 25-watts, Replaces: FS-5 , (4-to-8-watts); FS-2 , (15-to-20-watts); and FS-25 , (25-watts), <u>Please Note</u> : This Universal starter will not operate 30-to-40-watt lamps , each	3.00
71-015	Starter <u>socket</u> , (For the starter for each of the fluorescent lamps), exact match for most jukeboxes, (brown only)	7.50
71-013	Fluorescent lamp <u>socket</u> , T8 & T12, exact match for most jukeboxes, (black)	5.00
71-014	Fluorescent lamp <u>socket</u> , T8 & T12, exact match for most jukeboxes, (white)	5.00
78-015	Toggle switch, (Main on-off switch), excellent replacement, for all models	9.50
71-016	Line cord 16/3 round, black, 10-foot length, with 90° flat, molded plug, (This item is out of stock until further notice)	15.00

Prices are Current as of January 24, 2022

SEEBURG Q100 of 1959 – 1960 (Continued)

83-009	Carriage roller for mechanism, Seeburg M100B through all newer models, Seeburg part # 245082, this is a must replace if any one of the original, mechanism rollers, has any flat area and is not rotating, (Not rolling on the track), when the mechanism is scanning, This item is not discountable at this price , each	8.00
68-046	Chassis lock pin , this prevents the mechanism chassis from sliding, if these pins are missing, the mechanism can slide on the rails and become damaged, Seeburg models KS/KD200 through all newer models, (Not the L100), (This is an original Seeburg part), (2 required), each	8.00
98-005	Luberplate, Aero lube, (white grease), for all Models, this is the exact "White grease" that is illustrated and recommended in the Seeburg Service manuals. This is a small 3/8 oz. tube. It will fit in any tool bag and this is an ample amount, for several years, for one or two jukeboxes	4.50
98-006	Lubricating oil, highest quality, <u>genuine turbine oil</u> , perfect for lubricating Jukebox mechanisms and motors, (This is the original Zoom Spout oiler, this oil is manufactured in the U.S.A. , 4 oz. plastic bottle has a 9" telescoping extension-straw with a press-on cap	7.50
98-007	"PB Blaster", penetrating fluid for loosening frozen parts, 12 oz. aerosol can, Please Note: This item must be shipped via UPS Ground, only	5.00

Prices are Current as of January 24, 2022

**SEEBURG LS1 "Spectra" of 1967 – 1968 and
LS2 "Gem" of 1968 – 1969 (Continued)**

A-1 PART #

83-015	Spring, <u>for original</u> SP/ST – momentary slide , part of the service switch, for Seeburg Models AY, DS, LPC1, LPC480, U100, PFEAIU, APFEAI, S100, SS160, LS1 & LS2, (This is the spring only and it can be replaced without removing the switch or re-soldering any wires)	\$6.00
83-017	Switch, SP/ST – momentary slide , part of the service switch, this is an exact replacement for the original switch, for Seeburg models, from the 1960-61 AY100/160 thru the 1984-86 SMC3 Prelude	6.00
66-010	Label, peel, and stick, for the cover of the service switch for Seeburg models LPC1, LPC480, PFEAIU (Electra), APFEAI (Fleetwood) and can be used, if trimmed, for Seeburg models SS160, LS1 and LS2 , shows: SWITCH; SCAN; OFF and PLAY positions, for the service switch arm	4.00
92-015	Capacitor, (run condenser), <u>for the mechanism motor</u> , (Original style, round metal can), for Seeburg Models: M100A through STD4, (Not for Model SX100), contains these two capacitors: 1.0 mfd. and 1.4 mfd., both at 400 volts, (For all mechanism motors that were manufactured in the USA, (Not for Nidec motors), (This item is currently out of stock))	50.00
84-035	Grommets, support the latch bar solenoid, (Must be replaced if the rubber is hard, to prevent the latch bar solenoid from buzzing), 4-piece set	3.00
34-003	Letter and number strips, indicate location of 45s in the record magazine, peel & stick, (For models LS1 and LS2 only), 2 piece set	6.00
76-014	Key for Seeburg LS1, S100, LS2, LS3 and ES100 cabinet sides, (Not for the cash door), F205	10.00
67-012	Cash door, superior grade birch covered plywood, (The back-up plates are already attached to this door), (for use With metal frame around opening, for Seeburg models late M100C through LS3)	20.00
76-050	Lock, 1 1/8" quality lock, & 2 keys for Reproduction - wooden cash door	12.95
76-051	Lock, 1 1/8" quality lock, hardware, & 2 keys for Original metal cash door	12.95
76-085	Key, for all our reproduction locks that are keyed alike, key # LS301, each	4.00
92-058	Capacitor kits for Amplifiers used in Seeburg Models: LPC1 through USC2, Specify: Amplifier # TSA1 through TSA10 , each kit includes: Schematics and replacement values reference sheet, each kit	80.00
92-019	Transistor, PNP germanium, for Seeburg TSA1 thru TSA10 Amplifiers, Seeburg Auto Speed Units & Wurlitzer Amplifiers: 546 thru 553, (4 used in the Amps. & 2 used in the Auto Speeds), <u>Replace in matched pairs</u> , each 1	20.00
91-002	Volume control potentiometer (For stereo amplifiers): SHFA1, SHFA2 and TSA1 through TSA10, Also: For stereo amplifiers in Rock-Ola Models 1460 through 437, (This item is currently out of stock)	50.00
91-011	Knob, round plastic, for volume control, (for original potentiometer), in Seeburg Models: AY100 thru LS3, (for amplifiers: SHFA3 thru TSA9), (<u>The amplifier must be removed to attach this knob</u>). Has two 5/64" Allen wrench screws, (Use this knob if one-half of the split shaft is broken off)	4.00

Important Note: Replacement Stylus, (Needles), for the P-132D Cartridge:

Use either: A-1 Part # 74-001 which has .7 mil needles on both sides, or A-1 Part # 74-030, which has a 3 mil needle on one side and a .7 mil needle on the other side.

(Please see these 2 part #'s on Pg. 225, below, for more information)

NEEDLES, (REPLACEMENT STYLI)

Please note: All Needles, (Replacement Styli), listed in this catalog, are the best quality available. We do not sell inferior products.

A-1 PART #

- 74-027 Styli, for original Seeburg **Blackhead** cartridge, (**PICKERING Seeburg Magnetic**, is embossed into the side of the cartridge that has the down arrow ↓ near the top of the cartridge, (**3 mil sapphire tip, for original, shellac, 78 rpm records only, Not for Vinyl 78 rpm records**), (This, **Taller style**, of blackhead cartridge was a factory cartridge used in Seeburg model: **M100A only, both needles have an insertion tool and the needle is attached to the insertion tool**, per pair \$25.00
- 74-015 **Needles**, (Styli), for original Seeburg **Blackhead** cartridge, (**PICKERING Seeburg Magnetic**, is embossed into the side of the cartridge that has the down arrow ↓ near the top of the cartridge, (.7 mil **sapphire tip**, for all 45 rpm stereo and monaural records), (The blackhead cartridge was a factory cartridge used in Seeburg models: M100B, M100BL and some M100C only, **both needles have an insertion tool, and the needle is attached to the insertion tool**, per pair 30.00
- 74-009 **Styli**, for original Pickering/Seeburg **Redhead** cartridge, (The foil sticker on the front of the original cartridge reads: **SEEBURG HI / FI MAGNETIC**, (These are .7 mil diamond tip for all 45 rpm stereo and monaural records), (The redhead cartridge was a factory cartridge used in Seeburg models M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J, 100JL, V200, VL200, KS200, KD200, L100, 101, 161 and 201), **Please Note: These are molded, as original, not 3-D printed, (These produce superior sound), (Please Note: THIS ITEM IS OUT OF STOCK, AT THIS TIME)**, per pair 108.00
- 74-045 **Styli, Green Wedge** plastic housing, for the reproduction, Pickering cartridge known as the 345-03D, (The 345-03D cartridge is the one that **replaces** the original Pickering/Seeburg, Redhead cartridge that is originally found in Seeburg models: M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J, 100JL, V200, VL200, KS200, KD200 L100, 101, 161 & 201, **these Green Wedge** needles have a tracking force from 3 Grams to 6 Grams maximum, (.7 mil diamond tip needle for all stereo and monaural, 45 rpm records), **Green Wedge needles produce excellent sound and volume**, per pair 40.00
- 74-025 Styli, for the aftermarket cartridge known as the **Varco** cartridge, (Easily identified because a small screw holds the base of each stylus in place), (.7 mil **Sapphire tip**, for all 45 rpm stereo and monaural records), This early conversion cartridge **can be used in Seeburg models: M100B thru 201, (This item is not discountable at this price)**, per pair 20.00
- 74-026 Styli, for the aftermarket cartridge known as the **Varco** cartridge, (Easily identified because a small screw holds the base of each stylus in place), (.7 mil **Diamond tip**, for all 45 rpm stereo and monaural records), This early conversion cartridge **can be used in Seeburg models: M100B thru 201, (This item is not discountable at this price)**, per pair 20.00

Replacement Needles, (Stylus), for most jukeboxes, continue on the next page

NEEDLES (Continued)

Please note: All Needles, (Replacement Styli), listed in this catalog, are the Very best quality available. We do not sell inferior products.

A-1 PART #

74-038	Styli, for the DS conversion cartridge, also known as the Thorpe cartridge, this cartridge is grey, black, & white & does not have any markings to ID the manufacturer or type, it has a cone or bullet shaped top, (These needles are .7 mil diamond tip for all 45 rpm stereo & monaural records, the original needles, for this cartridge were flip needles, these are stationary, this was a replacement cartridge for the original Seeburg, Redhead, cartridge, this one is sometimes found in Seeburg's from M100B thru 201 ONLY , per pair	\$25.00
74-010	Styli, T shaped, (Described in Seeburg manuals as Armature Assemblies), for original Pickering/Seeburg, Stereo cartridges, (Magnetic Pickup), for Seeburg models: 222 through PFEAIU "Electra" & APFEAI "Fleetwood", (.7 mil diamond tip for all 45 rpm stereo & monaural records), (These have superior output, and superior sound quality) , (Please Note: THIS ITEM IS OUT OF STOCK, AT THIS TIME) per pair	125.00
74-008	Styli, Yellow Wedge plastic housing, for original Pickering/Seeburg Cartridges found in models: SS160 Showcase through SMC3 Prelude, these styli have a tracking force of 2 ½ to 3 Grams , (.7 mil diamond tip for all stereo and monaural 45 R.P.M. Vinyl records), Please note: Yellow Wedge needles will fit in the Pickering, replacement cartridge known as the 345-03D, (The 345-03D cartridge is used in Seeburg models M100B through 201), however, tracking forces in excess of 3 Grams might cause the needle to be pushed into the Yellow, plastic, housing, (For 345-03D cartridges, a needle with a tracking force between 3 Grams and 6 Grams, should be used), (These, Yellow Wedge needles, have a new High-level output) , per pair	40.00

74-002	Stylus, # 503-D7, .7 mil diamond needle, replaces Astatic N351-1D for AMi i, J, K, Lyric, Continental I & II and United UPA & UPB, (for all 45 rpm records)	15.00
74-019	Stylus, Astatic SH122-7D, .7 mil diamond needle, (for all 45 rpm records), AMi models: L, M, N, & O & Rock-Ola models: 424, 425, 426, 429 & 433, The plastic housing that holds the needle is Black , Please email a picture of your cartridge, to us, (With the Stylus still installed in it so that we will be able to verify the exact Stylus type)	30.00
74-014	Stylus, Astatic SH104-7D, .7 mil diamond needle, replacement for Shure N44C needle, for AMi/Rowe models: MM1 thru MM6 & up to R-94, and Rock-Ola models: 436, 437, 440, 442, 444 & 446 thru 490-2	30.00
74-032	Stylus, <u>special production</u> , .7 mil diamond needle for Wurlitzer One More Time 45 RPM, (for all 45 rpm records)	25.00

NEEDLES (Continued)

Please note: All Needles, (Replacement Styli), listed in this catalog, are the Very best quality available. We do not sell inferior products.

A-1 PART #

74-004	Styli, # 804-DS77, .7 mil diamond & .7 mil sapphire, "flip-needle" for Wurlitzer 2300 through 2600 only, (for all 45 rpm records), See Note: below, on this page, before ordering this replacement needle	\$15.00
74-005	Styli, # 808-DS77, .7 mil diamond & .7 mil sapphire, "flip-needle" for Wurlitzer 2700 through 3200 only, (for all 45 rpm records), See Note: below, on this page, before ordering this replacement needle	15.00
74-003	Stylus, # 159-D7, .7 mil diamond needle, replaces Astatic N43-7D for Rock-Ola 1484, 1488, 1493, 1495, 1496, 1497, 404 408, 414, 418, 430, 431, 432, 434, 435, 441 and 445, (for all 45 rpm records)	12.00
74-006	Styli, # 813-DS77, .7 mil diamond & .7 mil sapphire, "flip-needle" for Wurlitzer 3300 only, (for all 45 rpm records), See Note: below, on this page, before ordering this replacement needle	12.00
74-013	Styli, Astatic N14-D, .7 mil diamond & .7 mil sapphire, "flip-needle" for Wurlitzer 3400 & 3500, (for all 45 rpm records), See Note: below, on this page, before ordering this replacement needle	10.00
74-007	Styli, Astatic N51-DS77, .7 mil diamond & .7 mil sapphire, "flip-needle" for Wurlitzer 3600, 3700, 3800, 7500 & 1050, (for all 45 rpm records), See Note: below, on this page, before ordering this replacement needle	12.00
 Note: For Wurlitzer models 2300 and newer: we recommend that the Cartridge be replaced using our A-1 part # 75-001, (Ceramic cartridge # P-132D). It is also important to note that replacing a Jukebox Cartridge can be a complicated job. Experience is required to ensure a successful replacement. (The price of the P-132D cartridge is \$35.00 and that price includes a diamond needle).		
74-011	Stylus, <u>authentic Pickering, for NP/AC cartridge</u> , .7 mil diamond needle	20.00
74-001	Styli, # 864-DS77, .7 mil diamond & .7 mil sapphire, "flip-needle" <u>for P-132D ceramic cartridge, (for all 45 rpm records)</u>	12.00
74-030	Styli, # 864-DS73, .7 mil diamond & 3 mil sapphire, "flip-needle" <u>for P-132D ceramic cartridge, (one side plays 45s & one side plays 78s)</u>	12.50

Important Note: Replacement Styli for the P-132D Cartridge:

When using the P-132D Cartridge for playing 45 rpm records, Use A-1 Part # 74-001 which has .7 mil needles on both sides.

When using the P-132-D Cartridge for playing original, shellac, 78 rpm records, Use A-1 Part # 74-030, which has a 3 mil needle on one side and a .7 mil needle on the other. Use the 3 mil needle for playing original, shellac 78s only & .7 mil needle for playing 45s only.

Prices are Current as of January 24, 2022

37-011	Socket, rectangular, for 3-prong plug, this is a panel mount socket for wired selection receivers found in older Rock-Ola and Seeburg models, (this panel mount socket receives A-1 Part # 37-008)	15.00
37-035	Plug, SMALL, round, 4-prongs, For some Seeburg Credit Units , Cinch is printed on some of these but these are guaranteed to fit credit units, (This plug does not have a cover)	5.00
37-041	Plug, Large, Round, 4-prongs, Amphenol, for Seeburg amplifiers: MRA5, HFMA1, HFMA2, (This plug is sold without a metal cover)	15.00
37-042	Plug, Large, Round, 4-prongs, Amphenol, for Seeburg amplifiers: MRA5, HFMA1, HFMA2, (This plug is sold with a metal cover)	30.00

**PLUGS and SOCKETS FOR MECHANISMS,
AMPLIFIERS, RECEIVERS, CREDIT UNITS
and SPEAKERS, ETC., (Continued)**

A-1 PART #

37-130	Plug, square, 4 flat prongs and one round pilot pin, (Jones plug), this is the power connector for the side of Seeburg amplifiers: MRA1 through SHFA5 found in Seeburg models: M100B through DS160, (Original Seeburg Part No. 300007), New, original Seeburg part	\$20.00
37-051	Plug, SMALL, round, 5-prongs, Amphenol, or Cinch, for credit units	6.00
37-061	Plug, Large, 5-prongs, Amphenol, without a metal cover	25.00
37-062	Plug, Large, 5-prongs, Amphenol, with a metal cover	30.00
37-071	Plug, SMALL, round, 6-prongs, Amphenol, or Cinch, for credit units	6.00
37-072	Plug, SMALL, round, 6 prongs, Amphenol, or Cinch, with Aluminum cover	8.00
37-081	Plug, Large, 6-prongs, Amphenol: used in Seeburg M100A, B/BL & C, Speaker Plug, (Without a Metal cover)	27.00
37-091	Plug, Large, 7-prongs , Amphenol, New Old Stock , this plug has an exposed back, it is not molded, add jumper wires for use as a dummy plug for Seeburg Amplifiers MRA1 through MRA5 or for the Speaker plug in Wurlitzer Amplifiers 501, 502 and 503, no jumpers, no cover, This item is not discountable	30.00
37-092	Same as A-1 Part # 37-091, Plug, Large, 7-prongs , but with jumpers: 1 to 4, 2 to 3 and 5 to 7, without a cover, this item is not discountable	30.00
37-095	Cover, Snap-on, for Large, 7-prong plug, (For A-1 # 37-091 & 37-092)	15.00
37-093	Plug, Large, 7-prongs , Amphenol, (Original, Molded, Dummy plug), wires cannot be attached because this plug is molded & cannot be opened , this plug has internal jumpers: 1 to 4, 2 to 3 and 5 to 7	30.00
37-101	Plug, Large, 8-prongs, Octal, (Speaker plug in Wurlitzer: 1100 thru 1650 & is used for converting Wurlitzer 1015, 1080 & 1100 to Free Play, Please note: This is just the plug, (This plug is not wired to convert Wurlitzer models 1015, 1080 and 1100 to Free Play), without cover	25.00
37-102	Same as A-1 Part # 37-101, Plug, Large, 8-prongs, Octal, (Speaker plug in Wurlitzer: 1100 thru 1650 and is used for converting Wurlitzer 1015, 1080 and 1100 to Free Play, Please note: This is just the plug, (This plug is not wired to convert Wurlitzer models 1015, 1080 and 1100 to Free Play), this plug has a metal cover	30.00
37-145	Socket, for Large, 8-prong, Octal plug, (This socket has a crimped-on panel mount and each lug has two eyes, for two wires), new old stock	20.00
37-111	Plug, 9-pin miniature, (Looks like the bottom of a 12AX7 tube), for use on Remote volume controls for Seeburg HFMA1 thru newer Seeburg Amps. and some Rock-Ola models, (This plug does not have a cover)	10.00
37-121	Plug, Large, 11-prongs, Octal, for credit units, etc. Without a metal cover	25.00
37-122	Same as A-1 Part # 37-121, Plug, Large, 11-prongs, but with a metal cover	30.00
37-125	Socket, for Large, 11-prong, Octal plug, (This socket has a permanent panel mount and each lug has two eyes, for two wires), new original stock	25.00

Prices are Current as of January 24, 2022

**PLUGS and SOCKETS FOR MECHANISMS,
AMPLIFIERS, RECEIVERS, CREDIT UNITS
and SPEAKERS, ETC., (Continued)**

A-1 PART #

37-140	Socket, for Large, 11-prong, Octal plug, (This socket can be used as a cable connector or a panel mount can be added to it), without a cover	\$10.00
37-135	Cap, metal, (Snap-on), for all large, round, Amphenol plugs, please note: This cap has insulation and a cable clamp, as original	15.00
37-131	Plug, this 27-prong Jones plug , plugs into the socket in Seeburg Wired Selection receivers in Seeburg models : 146, 147, 148, M100A, M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J and 100JL, also used in junction boxes in Wurlitzer models : 1015, 1080 and 1100, (Used plug)	30.00
37-132	Socket, This socket accepts the 27-prong Jones plug used on Wired Selection Receivers in Seeburg models : 146, 147, 148, M100A, M100B, M100BL, M100C, HF100G, 100W, HF100R, 100J & 100JL, also for junction boxes in Wurlitzer models : 1015, 1080 and 1100, (Used plug)	30.00
37-155	Plug, this 33-prong Jones plug , plugs into the socket in Seeburg Tormat Selection receivers in Seeburg models: V200, VL200, 101, 161, 201, 220, 222, Q100/160, AQ100/160, AY100/160 and DS100/160, (Used)	30.00
37-156	Socket, This socket accepts the 33-prong Jones plug used on Seeburg Tormat Selection Receivers in Seeburg models: V200, VL200, 101, 161, 201, 220, 222, Q100/160, AQ100/160, AY100/160 and DS100/160, (Used)	30.00

Prices are Current as of January 24, 2022

POLISH FOR PLASTICS AND METALS

Novus plastic polish: for cleaning and restoring plastics. Recommended for Use on: Plexiglas, Lexan, Lucite, Uvex and Acrylite. **Please Note: The ideal polishing cloth is nonabrasive, absorbent, lint free and disposable, (If a cloth that has been used for polishing is reused, it has retained abrasive particles that will scratch most plastic surfaces. As a result, always use a new polishing cloth).**

A-1 PART #

50-007	Novus #1, gently cleans, shines, and protects all plastic surfaces without Scratching, Resists fogging, repels dust and eliminates static, 2 FL. oz. squeeze bottle	\$3.50
50-008	Novus #2, removes fine scratches, haziness & abrasions from most plastics and restores faded and discolored plastics, 2 FL. oz. squeeze bottle	4.50
50-009	Novus #3, removes scratches and abrasions from most acrylic surfaces, Use Novus #3 when the surface is too damaged to be restored by using Novus #2. Please Note: The use of Novus #3 requires the use of Novus #2 to achieve a desirable finish, 2 oz. squeeze bottle	5.50
50-012	Novus #1, #2 and #3, (Three pack of 2 oz. squeeze bottles), one of each	12.00
50-001	Novus #1, gently cleans, shines, and protects all plastic surfaces without Scratching, Resists fogging, repels dust and eliminates static, 8 FL. oz. squeeze bottle	8.50

Prices are Current as of January 24, 2022

POLISH FOR PLASTICS AND METALS, (Continued)

87-002	Record sleeves, white, for 7" 45 rpm records, each	.15
87-003	Record sleeves, white, for 7" 45 rpm records, package of 100 pieces	15.00

Rubber Gasket and Foam Cushion are listed on the next page

RUBBER GASKET and FOAM CUSHION

Sponge rubber, with **permanent adhesive backing**, for inside dome glass, lid glass & other areas that require this original type, (heavy duty), cushion. (Tell us the Make & Model number of your jukebox and we will supply the correct length and size of gasket that you need). Rubber-based contact cement can be added to the permanent adhesive side **Please Note: (All jukebox manufacturers added rubber-based contact cement to the adhesive-side when gasket was applied to the inside of dome-glass frames and lid-glass frames. Not the glass but the metal frames).**

A-1 PART #

64-001	<u>Sponge rubber gasket</u> , with permanent adhesive backing, original type, black, 1/8" thick x 1/4" wide , (Contact cement is suggested, only when using this gasket on the inside of the dome-glass <u>frames</u> and lid-glass frames. Contact cement is not included), per foot	\$1.40
64-020	<u>Sponge rubber gasket</u> , with permanent adhesive backing, original type, black, 1/8" thick x 3/8" wide , (Contact cement is suggested, only when using this gasket on the inside of the dome-glass <u>frames</u> and lid-glass frames. Contact cement is not included), per foot	1.65
64-002	<u>Sponge rubber gasket</u> , with permanent adhesive backing, original type, black, 3/16" thick x 3/8" wide , (Contact cement is suggested, only when using this gasket on the inside of the dome-glass <u>frames</u> and lid-glass frames. Contact cement is not included), per foot	1.75
64-003	<u>Sponge rubber gasket</u> , with permanent adhesive backing, original type, black, 3/16" thick x 1/2" wide , (Contact cement is suggested, only when using this gasket on the inside of the dome-glass <u>frames</u> and lid-glass frames. Contact cement is not included), per foot	2.00
64-004	<u>Sponge rubber gasket</u> , with permanent adhesive backing, original type, black, 3/16" thick x 3/4" wide , (Contact cement is suggested, only when using this gasket on the inside of the dome-glass <u>frames</u> and lid-glass frames. Contact cement is not included), per foot	2.25
64-010	Sponge rubber gasket, for <u>Original Thickness G, W, R, J & JL program glass, (this gasket thickness, 1/8" thick x 3/8" wide, is for factory-original-thickness program glass, only)</u> , \$1.65 per foot, 42" piece	5.75
64-015	Sponge rubber gasket, for <u>Our Reproduction G, W, R, J & JL program glass, (this gasket thickness, 3/16" thick x 3/8" wide, is for our reproduction program glass only)</u> , \$1.75 per foot, 42" piece	6.15
64-005	<u>Foam cushion, (Black, commercial grade), 1/8" thick x 1/4" wide</u> for under all four sides of the 2 Taller and 2 Shorter Program glass in Seeburg models: M100B; M100BL and M100C, Also, this foam cushion is perfect for under the 2-piece instruction glass in the same models, per foot	0.60
64-080	<u>Foam cushion, (Black, commercial grade), 1/8" thick x 1/4" wide</u> for under all four sides of the 2 Taller and 2 Shorter Program glass in Seeburg models: M100B; M100BL & M100C, Also, this foam cushion is perfect for under the 2-piece instruction glass in the same models, (10 ft. is the recommended length to purchase for both of the above applications), the price per foot is \$0.60, the price indicated here is for the 10-foot piece	6.00

Prices are Current as of January 24, 2022

TOOLS

A-1 PART #

98-001	Spring tension gauge for measuring tone arm weight, (for most jukeboxes), measures up to ten grams, in one-gram steps, (10 - 0 - 10 grams), (This is a Lifetime-quality item. This item is not discountable)	\$60.00
98-002	Points file, superior quality, (tungsten steel, lifetime-quality)	7.00
98-003	Contact, (points), adjuster, L shaped, chrome plated, lifetime-quality	8.00
98-008	Scriber, one end straight, one end L shaped, each end is threaded and removable for scribing a tight area, lifetime-quality, made in USA	10.00
98-004	Low voltage tester, 5 to 50 volts AC/DC, (50 to 60 Hz), has visual indicator and two insulated alligator clips	8.00
98-010	Circuit tester, 80 to 250 volts AC/DC, has visual indicator and probe, test leads	8.00
98-012	Hemostat, 5" straight end, for holding components while soldering, Stainless steel	7.00
98-014	Hemostat, 5" curved end, for holding components while soldering, Stainless steel	7.00
98-015	Flush Cutting Shear, Plato brand, has cushioned handles, made in The USA	12.00
98-020	Magnifying Glass, (Glass , not plastic), this 1 7/8" diameter glass lens has a 10X magnification and can be used to look at the needle point. (Protect your 45s, if the needle point is flat, change your needle as soon as possible), (Protective, rotating, <u>cover</u> , black vinyl outer and felt inner) this is <u>a-must</u> tool for checking that your stylus still has a point and has not gone flat	6.00

Tubes, (Electron Tubes and Sockets) start on the next page

Prices are Current as of January 24, 2022

TUBES, (ELECTRON TUBES AND TUBE SOCKETS)

Please note: All Electron Tubes listed in this catalog are New, Best quality and fully Guaranteed to work to your complete satisfaction. **We do not sell used tubes.**

A-1 PART #

90-001	OA2 Electron tube	\$10.00
90-055	2A3 Electron tube, high quality, (Made in Russia), (Currently out of stock)	60.00
90-002	2D21 Electron tube	10.00
90-056	5U4G Electron tube, high envelope, original pear shape, (Made in Russia), We have reduced the price of this sought-after tube, to make it more affordable	25.00
90-070	5U4GB Electron tube, All Brand Names, (Made in U.S.A.), N.O.S., fully tested	30.00
90-003	5U4GB Electron tube, high quality, (Made in Russia)	25.00
90-004	5Y3GT Electron tube	23.00
90-005	5Z3 Electron tube, (Not discountable at this price)	40.00
90-006	6AN8A Electron tube	14.00
90-007	6AU6 Electron tube	10.00
90-008	6AW8A Electron tube	10.00
90-010	6BA6 Electron tube	10.00
90-011	6BJ6 Electron tube	10.00
90-012	6BK7 Electron tube	10.00
90-013	6BQ5 / EL84 Electron tube, very-high quality, (Made in Slovak Republic)	25.00
90-015	6C6 Electron tube and # 77 have the same internal components	12.00
90-016	6CA7 Electron tube	28.00
90-017	6CG7 Electron tube	15.00
90-018	6CY7 Electron tube	18.00
90-019	6EU7 Electron tube, high quality, (Made in Russia)	32.00
90-020	6F6 Electron tube	25.00
90-021	6H6 Electron tube	16.00
90-022	6J5GT Electron tube, (Glass)	14.00
90-051	6J5 Electron tube, (Metal)	16.00
90-023	6J7 Electron tube, (Metal)	15.00
90-073	6L6GC Electron tube, All Brand Names, (Made in U.S.A.), N.O.S., fully tested	50.00
90-071	6L6GC Electron tube, " Tung-Sol ", Russian Power Tube , Special request, (This item is not discountable at this price)	50.00
90-025	6N7 Electron tube	15.00
90-026	6SA7 Electron tube, (Metal)	10.00

Prices are Current as of January 24, 2022

TUBES, ELECTRON TUBES & TUBE SOCKETS (Continued)

Please note: All Electron Tubes listed in this catalog are New, Best quality and fully Guaranteed to work to your complete satisfaction. **We do not sell used tubes.**

A-1 PART #

90-027	6SC7 Electron tube, (Metal)	\$30.00
90-028	6SJ7 Electron tube, (Metal)	14.00
90-052	6SK7 Electron tube, (Metal)	14.00
90-030	6SL7GT Electron tube, (Glass), high quality, (Made in The U.S.A. or Russia)	25.00
90-058	6SN7GTB, Electron tube, (Glass), New old stock, (Made in USA)	40.00
90-031	6SN7GT, Electron tube, (Glass), high quality, (Made in Russia)	40.00
90-065	6V6GT, Electron tube, (Glass), New old stock, (Made is USA)	24.00
90-034	6V6GT Electron tube, (Glass), high quality, (Made in Russia)	20.00
90-032	6X4 Electron tube	14.00
90-033	6X5GT Electron tube	15.00
90-035	12AT7 Electron tube, high quality, (Made in Russia)	22.00
90-036	12AU7A Electron tube	25.00
90-037	12AX7 Electron tube, same as # 7025, Specify: #, high quality, (Made in USA)	25.00
90-038	12BH7A Electron tube	35.00
90-039	30 Electron tube	30.00
90-040	41 Electron tube	24.00
90-042	76 Electron tube	30.00
90-043	77 Electron tube and 6C6 have the same internal components	12.00
90-044	79 Electron tube	18.00
90-045	80 Electron tube	28.00
90-057	2050 Electron tube, high envelope, original pear shape, highest quality	30.00
90-046	2050A Electron tube, all name brands, excellent quality	30.00
90-047	5879 Electron tube	20.00
90-075	6CM6 Electron tube, N.O.S. made in USA = Best replacement for 6973 , (Jumper pins 1 & 8 on the bottom of the tube socket when using 6CM6)	25.00
90-053	6CZ5 Electron tube, = Replacement for 6973 , (Use 6CZ5 with no modifications if used with Seeburg or Wurlitzer Amps.)	20.00
90-048	6EM5 Electron tube, = Replacement for 6973 , (Use 6EM5 with no modifications if used with Seeburg or Wurlitzer Amplifiers)	18.00
90-054	6973 Electron tube, not a substitute, high quality, (Made in Russia)	75.00
90-037	7025 Electron tube, same as 12AX7, Specify: #, high quality, (Made in USA)	25.00

Prices are Current as of January 24, 2022

TUBES, ELECTRON TUBES & TUBE SOCKETS (Continued)

Please note: All Electron Tubes listed in this catalog are New, Best quality and fully Guaranteed to work to your complete satisfaction. **We do not sell used tubes.**

A-1 PART #

90-049	7199 Electron tube, high quality, (Made in Russia)	\$58.00
90-050	7868 Electron tube, (We only have 6 New Old Stock Sylvania remaining as of 02-15-2022), (This item is not discountable at this price)	80.00
90-061	Tube socket / connector socket, 7 pin ceramic <u>pc mount</u> for pc boards in Seeburg Models KS200, KD200 and L100, each	5.00
90-062	Tube socket, 8 pin octal ceramic <u>pc mount</u> for holding 5U4, 6L6 & 2050 tubes in pc boards in Seeburg Models KS200, KD200 and L100, each	5.00
90-063	Tube socket / connector socket, 9 pin ceramic <u>pc mount</u> for pc boards in Seeburg Models KS200, KD200 and L100, each	5.00
90-064	Metal shield & inner spring, (covers 9 pin electron tubes such as 5879)	5.00

Prices are Current as of January 24, 2022

WIRE, (Tone arm wire)

A-1 PART #

71-050	Wire, tone arm wire, 4/32 gauge stranded, black, red, green, white, per foot	\$7.00

As of January 24, 2022, this is the last entry in our 2022 2023 Catalog.

Please see our Company Information, Promise & Guarantee, below on the last page.

OUR COMPANY INFORMATION, PROMISE & GUARANTEE

Our “Customer Satisfaction Guarantee” applies to every original jukebox part, reproduction jukebox part and/or accessory that is purchased from us.

If you have any questions, please send us an Email, or give us a call, anytime. Please note I personally prefer Emails as I can cover the content better, with you, and answer your questions in more detail, in Emails.

Also, for ordering: Emails are much more accurate than phone orders. Please copy and paste the A-1 number, the description and the price, to your Email and send your order to: **mail@jukeboxusa.com**

→ **For Faster Service**: Please be sure to include your Name, Ship to address and a phone number so we can call you to confirm your order and so we will be able to talk to you, if we have any questions and so we will be able to obtain your payment information.

Thank you, Patrick
